

TRANSCRIPT PREPARED BY THE CLERK OF THE LEGISLATURE
Transcriber's Office
FLOOR DEBATE

January 31, 2003 LB 358

provisional ballot; and how to contact the appropriate officials if these rights are violated; and general information on federal and state laws regarding prohibitions on acts of fraud and misrepresentation. Section 23 says that a person who is registered to vote and moves to a new residence in the same county and precinct but has not changed his or her voter registration form to reflect the move, is entitled to vote at the new precinct. Section 25...or 24 I should mention because it eliminates what we formerly called conditional balloting, and combines that with provisional balloting. They're almost one and the same type of process. Section 25 talks about any person who votes in an election for federal office, as a result of a court order or any other order extending the time for closing the polls pursuant to a state law in effect 10 days before the election, may only vote by provisional ballot. Section 25, the judge of election is required to give a voter who is voting by provisional ballot written information on the free access system and how to determine if his or her vote was counted. Section 30 says, again, that references to conditional balloting are eliminated. The election commissioner or county clerk is required to notify the system administrator of the free access system as to whether a vote was counted and, if not, the reason the ballot was not counted. And that is the end of what I think are the major provisions of this particular bill. And with that, Mr. President, I would turn my time back to the Chair and I'd be happy to answer questions.

PRESIDENT HEINEMAN: Thank you, Senator Schimek. Any discussion? Seeing none, the Chair would recognize Senator Schimek to close.

SENATOR SCHIMEK: Thank you, Mr. President and members. I didn't mention the fiscal note in my opening remarks and I should mention to you now that this fiscal note does have a \$7,500 General Funds appropriation, and the reason for doing that is so that these bills would be stopped on Final Reading, Senator Beutler. And after we stop it on Final Reading and assure ourselves that we have those federal funds, that \$7,500 General Fund appropriation can go away. I wanted to mention that to you because nobody asked about it. Thank you.
